THERAPY INFORMED CONSENT

SERVICES: We provide many different types of therapy and counseling. Counseling services can vary in length depending on the collaborative effort between therapist and client. The goals for counseling are developed with the therapist and are based on the client's needs and concerns, and are reviewed on a regular basis to monitor progress. Our counseling services are voluntary. If the client has court documentation for counseling a copy of this documentation must be provided by the next counseling session. **When bringing children for counseling services, the adult providing transportation is required to stay on the premises during the session.** STAFF: Counselors providing services are Licensed or Registered Clinical Social Workers, Marriage and Family Therapists, Mental Health Counselors, or they are Master Level Student Interns in these fields supervised by Licensed Therapists.

FEES: Counseling session fees are based on the client's agreed upon rate, set at the first counseling session. All fees are due at the beginning of each session. AUDIO/VIDEO TAPES: *Videotapes are used to assist with supervision, consultation and training of counselors working with their clients.* These tapes are not considered part of client files and will be used only to assist the progress of the client's case. The tapes are destroyed on a regular basis. Sessions will not be audio recorded without prior written consent.

TERMINATION: The client is expected to inform the therapist if the client plans to discontinue counseling for any reason. If a client fails to show up or cancel two appointments, their file will be closed. Counselors may have to discontinue therapy if the client is currently involved in domestic violence, substance abuse, or has shown violent or threatening behavior. The client may be given a referral to other more appropriate services for issues of substance abuse, violence, or severe mental health issues.

BENEFITS/RISKS: The majority of individuals and families that obtain counseling, benefit from the process. Self- exploration, gaining insight, exploring options for dealing with problem behavior, learning new skills, or venting difficult feelings and experiences are generally quite useful. But, some risks do exist. As counseling is begun some individuals experience unwanted feelings. Examining ones life can produce unhappiness, anger, guilt or frustration. These unwanted feelings are a natural part of the psychotherapeutic process and often provide the basis for change. Also, sometimes a decision that is positive for one family member will be viewed quite negatively by another.

QUESTIONS: Do not hesitate to discuss counseling goals, procedures, concerns, or your impression of services provided. If there is something you do not understand, please ask for a clarification.

I have read and understand the nature and limits of therapeutic services provided by Port Orange/Daytona Beach/Ormond Beach Counseling Center.
